Shoes for Winter
There really is only one shoe that stands the rigor of winter wear and still allows dressy appearance combined with comfort. That is the Dr. Reed Cushion Shoe. Pretty broad statement? There are scientific reasons for it.
Dr. Reed Cushion Shoes have an inner sole of felt and cork built into them. The felt gives cushioning comfort to the foot and retains its warmth. The cork is impervious to moisture and shuts out the cold. Your winter shoes well may be Dr. Reed Cushion Shoes.
